

WI PRESCRIPTION DRUG MONITORING PROGRAM

NABP Region IV

Milwaukee, WI

November 5, 2015

Overview

1. Current Operations and Statistics
2. Data Integration Projects
3. Future Enhancements

Current Operations and Statistics

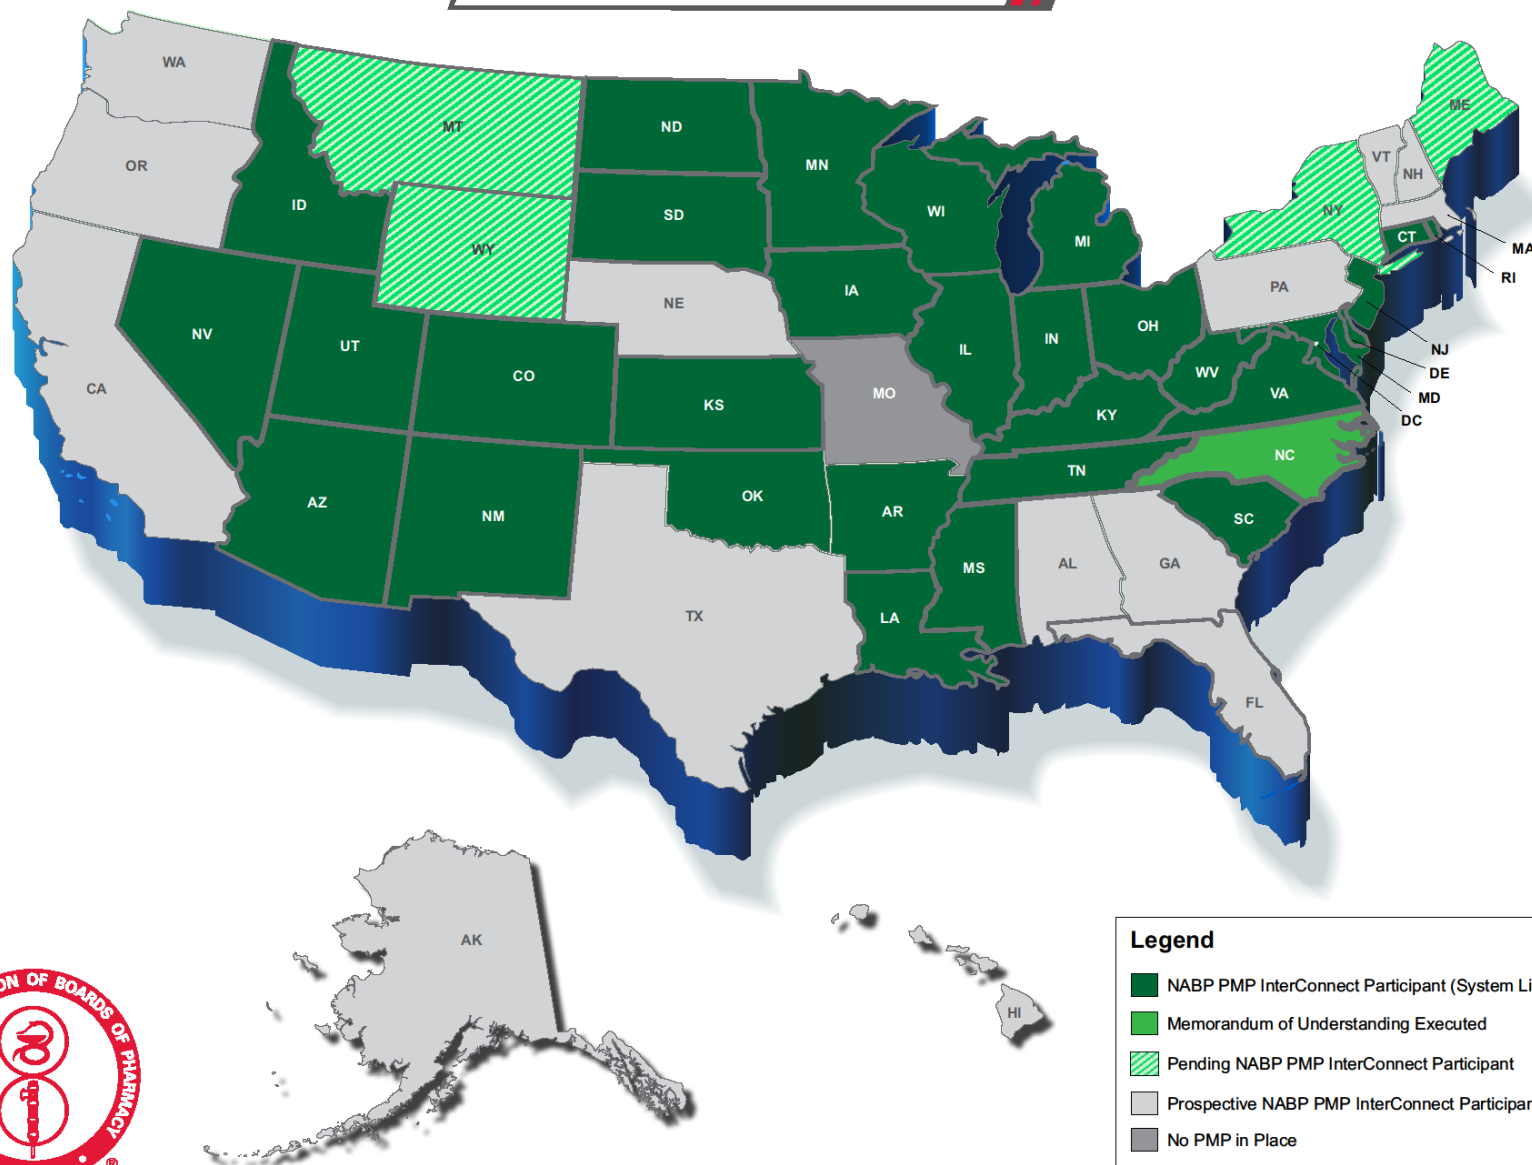

Current State of the WI PDMP

- 2015 WI Act 55:
 - Moved oversight of the PDMP from the Pharmacy Board to the Controlled Substances Board
 - Increased membership of CSB to include prescriber representatives
 - CSB given proactive authority: to analyze PDMP data to identify “circumstances indicating suspicious or critically dangerous conduct or practices of a pharmacy, pharmacist, practitioner, or patient” and make appropriate referrals

Operational Statistics

- Over 30 million R_x records in the database
- Approximately 1,800 dispensers actively submitting data
- **User Registration:** Over 13,000 users with query accounts
- **Healthcare Queries:** Over 2 million recipient queries performed since June 1, 2013
 - Approximately 62,000 interstate queries performed since October 1, 2013
- **Healthcare User Alerts:** Approximately 1,400 since July 1, 2013

WISHIN Training Guide

Prescription Drug Monitoring Access

All PDMP Users

Finding PDMP Data

Once in a patient record, PDMP data can be found on the Medications tab.

To view PDMP Data:

1. Select the Medications tab (Note: Depending on your access, this may be the only tab available to you).
2. Select the Prescription Monitoring Program tab.
 - Controlled substances for the past year will display.

Patient	Date	Drug	Quantity	Prescriber	Refill
123456789	1/1/2018	Hydrocodone Bitartrate	30	Dr. John Doe	0
123456789	1/15/2018	Hydrocodone Bitartrate	30	Dr. John Doe	0
123456789	2/1/2018	Hydrocodone Bitartrate	30	Dr. John Doe	0

Prescription fill date, dispenser, prescriber name, quantity and refill information appear for all controlled medications dispensed to the patient in the past year.

What does "No Data Returned" mean?

If the patient has not filled a controlled substance prescription in Wisconsin during the date range listed, an indicator appears stating No Data Returned. It is possible the patient has never had a controlled substance, or you need to adjust the date range.

Changing the date range

By default, PDMP information for the past year will appear. To query a different date range, simply change the start and end dates, and press Submit. If information is available, it will appear.

What is the PDMP?

The PDMP is Wisconsin's statewide program for collecting information about monitored prescription drugs being dispensed to patients. For more information, visit www.dhs.wi.gov/pdmp. The following medications are included:

- State Controlled Substances in Schedule II, III, IV or V that require a prescription order
- Federally Controlled Substances in Schedule II, III, IV or V that require a prescription order
- Tramadol

VA Integration Pilot Background

- U.S. Department of Veterans Affairs is a partner in the eHealth Exchange
- VA wants to incorporate PDMP data into its EMR
- Identified the WI PDMP as a partner to pilot the process
 - VA submits data to the WI PDMP
 - Wisconsin has several eHealth Exchange connections

VA Integration Pilot

Future Enhancements

Future of the WI PDMP

- Current H.O.P.E. Bills (2015 AB 364):
 - Increase data submission frequency from 7-days to 1 day
 - Require prescribers to review PDMP data prior to issuing a prescription order
 - Allow law enforcement agencies and prosecutorial units to request PDMP data pursuant to active investigation without court orders
 - Add access for non-prescriber healthcare and substance abuse professionals

Future of the WI PDMP

- Current H.O.P.E. Bills (2015 AB 365):
 - Require law enforcement agencies to report any of the following to the PDMP for dissemination to PDMP users:
 - A suspected violation of the CSA involving a prescription drug
 - A person who is undergoing or who immediately prior experienced an opioid-related overdose event
 - A person who may have died as a result of using a narcotic drug
 - A report of a stolen controlled substance prescription

The screenshot shows a web browser window with the address bar displaying `http://pdmp.dps.wi.gov`. The page title is "WI PDMP". The header section includes a navigation bar with icons and labels for "New Patient Query", "Patient Portfolio", "Weekly Patient List", "Self-Query", "Alerts (#)", "Delegate Management", and "User Settings". On the right side of the header, it states "Currently Logged in as: USER", "You will be logged out in: 10:00", and "Your password will expire in XX days", with a "Change Password" link and a "Log Out" button. Below the navigation bar, there are two tabs: "Alert Mail Box" and "Create Alert", with "Create Alert" being the active tab. The main content area is titled "CREATE ALERT" and contains the question "Why do you want to create an alert?". Below this question is a box titled "Alert Types" which lists several reasons: "A patient of mine has a concerning prescription history", "A patient of mine has agreed to a pain contract with me or my clinic", "A patient of mine participates in the Medicaid Lock-In Program", "A patient of mine may be committing Medicaid fraud", "I suspect someone has used my DEA number in an unauthorized way", "I believe my controlled substance Rx pad is lost, stolen, or is being copied", and "Other Reason". At the bottom of the "Alert Types" box is a "Continue" button. At the very bottom of the page, there is a link for "Disclaimer Language".

Development of WI E-PDMP

- Based on extensive stakeholder input
- Designed to help users effectively satisfy legislative mandates
- Grant funded:
 - BJA Harold Rogers PDMP Grant
 - CDC Prescription Drug Overdose Prevention Grant
- Anticipated deployment in January 2017
