NABP/Board of Pharmacy Seat:

- **Mark H. Bunton, RPh | Indiana**

- I am interested in serving on the executive committee to benefit the members and supporting organizations of District IV. I think the opportunity to learn from the current board members and share my leadership experiences would be another way for me to serve the pharmacy profession that I have been a part of for the last 25 years.
- I hope to elevate the district by building on the current relationships I have in pharmacy and expanding those throughout the district and country. I think I can help expand the awareness of the organization in the pharmacy community and help pharmacist become more aware of the organization and its goal of promoting the practice.
- I have had the opportunity to work closely with Purdue University and pharmacy students for the last 25 years of my career. I have recruited, developed, and mentored hundreds of pharmacy students as they have gone on to pharmacy careers. The relationships with students and pharmacists over this time frame allow me to understand the current challenges pharmacists are facing in their early, mid, and late time in their careers.

- **Maria Young, RPh | Michigan**

- 25 years since graduating in 1996, I never imagined I would have been immunizing, owning an independent pharmacy and have a seat as the Vice Chair of the Michigan Pharmacy Board. The practice of Pharmacy needs to go beyond the count, lick and stick perception. As we near provider status, more work will be necessary, including how to navigate the reimbursement for pharmacy clinical services. I am ready for that call and will continue to pave the road to expand the pharmacy scope of practice.
- My first impact on the practice of Pharmacy in Michigan was during the 2009-2010 H1N1 pandemic. Being ahead of the curve and partnering with Pharmacy Students, we were able to administer over two thousand H1N1 Nasal Vaccines in less than 2 weeks. Since opening my own pharmacy I have learned how people view the pharmacy world. I have witnessed, experienced, and understood firsthand how to keep the needle moving forward and this is the next step to practicing pharmacy beyond the pill.
- I was able to navigate with the PBM's, Health Department, and other Health Care Providers to become one of the first pharmacies to get an insurance contract for proper reimbursement for administration of the H1N1 vaccine. I have learned how to explain and bridge the gap to those who need to learn about how capable and necessary pharmacist are in today evolving healthcare setting.
