

Submission of District Resolutions to NABP

Resolutions adopted at the National Association of Boards of Pharmacy (NABP) Annual Meeting influence the policy and activity of NABP in the coming year. The Committee on Resolutions consists of eight members, one from each district, and said member formally represents the district at the Committee on Resolutions meeting. We ask that the delegate (and if needed, alternate) designated at the district meeting serving on the Committee on Resolutions meeting be a **current** board member at the time of the Annual Meeting.

Article IV Section 6 of the NABP Constitution states:

- (c) *The Committee on Resolutions will meet during the Annual Meeting of the Association to give due consideration of resolutions submitted to the Association, check against duplication or contradiction with past resolutions or policy adopted by this Association, refer all resolutions concerning examination procedures not previously so referred by the Executive Director/Secretary to the Advisory Committee on Examinations for report before submitting same to the Association, and put resolutions in proper phraseology and form before submitting them to the Association. All resolutions shall be submitted to the Association for consideration, with a committee recommendation to “pass,” “not pass,” or “no recommendation.”*
- (d) *Any active member board, District, or committee of the Association may submit resolutions to the Association. Except as otherwise provided in subparagraph (c) of this section, all resolutions submitted in writing to the Association at least twenty (20) days prior to the date of the Annual Meeting shall be presented at the Annual Meeting for consideration. Resolutions not presented within such time limitations may be presented during the Annual Meeting and will be considered for adoption by the Association upon the affirmative vote of three-fourths (3/4) of those active member boards present and constituting a quorum.*

In order for each resolution from your district to retain its original intent throughout the review and revision process, please submit all substantive and Association-wide resolutions (those meant to be considered for adoption by the full NABP membership) in accordance with the NABP Constitution (Article IV, Section 6) utilizing the attached form. This form will also assist your district delegate to the Committee on Resolutions during the committee meeting.

RESOLUTIONS FORM FOR DISTRICT 1

Resolution To Convene a Committee to Discuss Adverse Event Reporting for Compounded Medications

Provide brief background information on the proposed resolution.

Although prescription compounding represents a significant portion of pharmacy practice activity, there is little to no data concerning true adverse drug events caused by compounded preparations or the pharmacies that prepare them

What issue or need does this resolution attempt to address?

The development of a standardized compounded preparation adverse drug event reporting system for the purpose of aggregating data that can be utilized by state Boards of Pharmacy when developing policies or regulations concerning prescription compounding

Is this actionable for NABP?

X Yes

No

What is the desired outcome (ie, what specific action do you want NABP to achieve)?

Establishment of a work group or committee to address this issue.

Is this in NABP's scope or sphere of influence?

X Yes

No

Does this fit within the mission of NABP?

X Yes

No

Mission Statement: NABP is the independent, international, and impartial association that assists its member boards and jurisdictions for the purpose of protecting the public health.

Proposed Resolution To Convene a Committee to Discuss Adverse Event Reporting for Compounded Medications

Whereas pharmacy compounding comprises a significant portion of licensed activity regulated by state boards of pharmacy; and

Whereas, in the interests of the consumers they serve, state boards of pharmacy have an obligation to implement and maintain an effective system of patient reporting of adverse events related to compounded medications; and

Whereas adverse event reporting frameworks related to compounded medications vary in rigor and effectiveness among states; and

Whereas, among the challenges of adverse event reporting framework related to compounded medications is the absence of a standard, consistent definition of "adverse event" across the states; and

Whereas patients who experience legitimate adverse events related to a compounded medication – and the compounding pharmacy that prepared that medication – would benefit from a standard reporting framework that is simple, timely, and effective.

Be it therefore resolved that the National Association of Boards of Pharmacy along with other stakeholders including, but not limited to, the Alliance for Pharmacy Compounding, will form a joint committee to convene, deliberate, and make recommendations on this important issue no later than Autumn 2022.

Indicate the individual who will serve as the contact person for the proposed resolution between the district meeting and the Committee on Resolutions meeting in May.
