

I am interested in running for the District IV Regional Executive Committee. I have motivation and energy around the advancement of pharmacy practice. I have been in the pharmacy world for over 21 years. Starting my career as a pharmacy technician, moving to intern, pharmacy manager and becoming Vice Chair of the Wisconsin Pharmacy Examining Board. I was able to be a part of many changes in WI during the COVID pandemic. While joining the WI PEB during the beginning of COVID came with challenges, it also paved the pathway for many advancements in the pharmacy practice. I believe the landscape of pharmacy is changing. It's crucial during this time that we make advancements and change the mindset to encourage current pharmacist as well as future/potential pharmacists to embrace the coming changes and to put our patients and their care at the focus. It does not matter if you work in a hospital, in the community or in many of the other roles available to pharmacists, we are all here to work together to take care of our patients. I want to ignite the interest in pharmacy again and move forward with advancing the practice.
